From time to time a book appears on the scene that radically challenges and/or refutes contemporary 'Consensus Reality Truths' that are intellectually interpreted... truths that are honored and celebrated as reinforcing our current progressive culture and economy. 'God Loves You Maybe... But Only Just a Few' is one such book.

This is a very unusual book for a wide range of reasons. Having earned three degrees in Psychology... I chose to write the book utilizing 'The American Psychology Association Format.' The book has over 115 footnotes in it. I utilized nine different reference Bibles in the writing process for my Scriptural Reference resources throughout the book... including the current edition of 'The Jewish Bible...(Tanaka Translation)'. Another very unusual feature about the book... it is written in the 'Third Person'... which is very rare for a book of this type. In short... when reading through the book... the reader gets a sense that the Author is having a personal conversation of (Give and Take) with them.

In this book... I have assembled an impressive menu of 'Biblical Truths' ... that have for centuries been accepted and also bent to the needs and will/desires of prevailing progressive social reality. And by doing so... I have boldly declared the 'Original Biblical Truths' ... as they were originally meant to be... literally breathed by the Holy Spirit into Holy Scripture.
