

GISLEHAM INDUSTRIES

Due to continued expansion we are looking to fill additional full-time engineering positions:

Sheet Metal / Fabricator:

Ideally a time served Welder Fabricator with experience on stainless and mild steel, ability to work from drawings as much of the work custom build. Welding certification desirable but not essential.

General Machine Shop Engineer:

Ideally a time served engineer with turning & milling experience. much of the work is one off or small batch so ability to work from drawing is desirable.

Closing date for application 24th May 2019
