

Drug Free, Surgery Free, Pain Free

What the K-Laser can treat:

I have stenosis and herniated discs. I used a wheelchair most of the time, and didn't walk much. The pain was incredible. With Laser, I don't need my wheelchair, and my pain has greatly diminished. I used to take a lot of morphine and now I rarely need it. Laser has made my life 100% better.

Susan M

Steve Donahue, Asst Athletic Trainer of the N.Y. Yankees, reports, "We use the K-Laser both on acute and chronic conditions. Players seem to respond quicker. It's a hot item in the training room. The guys line up for it!" More than 1200 studies conducted worldwide have shown the powerful therapeutic benefits of high power laser therapy.

TO FIND OUT IF YOUR CONDITION IS TREATABLE USING CLASS 4 LASER, CALL US FOR A NO-CHARGE CONSULTATION
