According to Dennis and Leon, "We focus on precisely diagnosing the cause of your low back pain and sciatica; and a programme for reconstructing the damaged area causing the pain; this means long-term results for most people."

Because the treatment is non-surgical, safe and easy, most patients report an almost immediate relief from their pain.

Patient Catherine M. from Thornhill says, "I woke up every morning with low back pain that was unbearable and searing burning pain I felt into my leg.

I had trouble doing anything I did before like running, and working out, and even being at work was extremely difficult. The drugs my MD prescribed hardly did anything.
