

The
PainCare Center

There is an effective treatment that doesn't involve major surgery!

If you are tired of being told that there is nothing that can be done and taking pain pills for the rest of your life is the only answer, you may be a candidate for **FACET RADIOFREQUENCY RHIZOTOMY**. This technologically advanced outpatient procedure uses heat to deactivate pain causing sensitive nerves in your back and stops the pain!

**Improve your
quality
of life**

Offering comprehensive evaluation and treatment of all pain types including:

- Headache • Neck Pain
- Low Back Pain
- Slipped Disc
- Fibromyalgia • Arthritis
- Myofascial Pain Syndrome

Diagnosis and treatment for all neurological disorders, as well as pain management techniques including:

- Fluoroscopic X-Ray Guided Injection
- Radio Frequency Facet Neurotomy
- Botox Treatment
- Selective Nerve Root Blocks
- Medial Branch Blocks
