Friends of Gold Butte Speaker Series

"Saving Nevada's Reptiles"

Wednesday, January 17, 2018

Doors open at 6:15, program begins at 7:00 pm
Mesquite Community Theater, 150 N. Yucca St.

**Did you know that there is a rich diversity of reptiles
in the arid desert around us?**

Our speaker this month is Jason Jones, the state herpetologist from the Nevada Department of Wildlife. He spends his time tracking the movements and behaviors of these unique and interesting creatures. Join us to learn how to identify the different species who make their home in the Mojave Desert and the citizen science efforts to protect these amazing animals from various threats.
