

STSC

Stoystown Tank and Steel Company

Stoystown Tank & Steel is looking to hire an experienced Quality Control Manager and a Skilled Welder/Fabricator in Stoystown, PA.

Stoystown Tank offers full benefits including health insurance, paid vacation and holidays, and a matching 401(K) plan.

ASME Quality Control Manager

Must have background in ASME Section VIII Div. 1 code fabrication. Will oversee the quality of pressure vessels fabricated according to ASME code. Required to supervise the work of production employees, work effectively within a small management team, and help resolve quality issues with customers. Need experience in manufacturing, management, hydrostatic pressure testing, material test reports, and reading and interpreting blueprints. Manager will work on the production floor and in an office environment. Knowledge of safety programs and equipment maintenance is a plus. Organized and detail oriented personality is a must. Salary based on experience.

Welder/Fabricator

MIG welding and steel fabrication experience required. Blueprint reading is a must to be successful. Positive attitude and eager to learn new skills will take you far. Overtime sometimes required. Incentive pay offered. Pay based on skill.
