Must present this ad in order to receive offer. Exam, x-ray, and healthy mouth cleaning is only valid for new patients without insurance, Medicare, Medicaid, TRICARE, or a discount dental plan, and in the absence of periodontal disease. Oral cancer screening is a pre-diagnostic test available at no cost to any paid appointment; not to be administered during free consultations, second opinions, or other non-paid appointments. If gingivitis or periodontal disease is present, the customer may be offered a similar treatment at the same price. Offer may not be combined with any other offer or special promotion for Invisalign. A second opinion is a consultation regarding a pre-diagnosed condition. When seeking a second opinion, it is in patients' best interest to bring any x-rays, treatment plans, and/or other documentation to assist during consultation. Same-day appointments are offered when available but are not guaranteed. Offer may be combined with other offers for which patients are eligible. Services provided by an Arizona-licensed general dentist.
