

# “Would You Invest \$37 to Find Out if there’s a Way to Get You Pain-Free and Healthy Again?...”

*even if you’ve been frustrated before...*

Dear friend,

The typical person that comes to my office has been to many doctors already. Many have spent thousands on exams and procedures, and many are no better than when they started.

So, today, I’m offering you a way to see if perhaps I can help. Very often I can. Let me tell you a little about myself before I go on to explain my offer.

**Twenty years ago something happened to me that changed my life forever...**

Back then, I was working as a software engineer in Cambridge, MA and I got hit by a car when I was riding my bicycle to work one morning. When the car hit me I fell off my bike and my leg was crushed under one of the car’s tires. I was later taken to an ER in Boston by ambulance, and was treated and released with a pair of crutches and was told, “there are no fractures”. I went to my PCP a few days later and they referred me to two different medical specialists. Both MD’s said they “couldn’t do anything” for me. But, I still had a lot of swelling and numbness in my leg (the one that was crushed), and I was sore all over.

**I was frustrated, and I wasn’t sure what I could do to get better.** I was afraid I would never feel better again. Then, something happened that changed my life forever...

A friend of mine told me to go see her Chiropractor. I was hesitant at first because I didn’t know what a Chiropractor could do for me. However, I decided to take a chance...

The Chiropractor did an exam, took some x-rays, and then “adjusted” my spine, leg, ankle and foot. The adjustments didn’t hurt, they actually felt good. I got relief and the numbness and swelling in my leg got a lot better. I was able to start running again within a few months. I was so impressed with the other ‘miracles’ I saw in his office that I eventually went to Chiropractic school myself. And that’s how it happened!

Let me tell you about one of my patients, Kaden S. He was a young man who had constant, “unbearable” pain in his lower back before he came to me. He was told by other doctors (including other chiropractors and medical doctors) that his only options were steroids and surgery. He said he felt depressed and hopeless.

After beginning chiropractic care with me he said that he felt “amazing”, and said that he got his “life back.”

**For the last fifteen and a half years people have come to see me for their leg pain and numbness.** They’ve also come to me for their shoulder pain, arm/elbow pain, hand pain, carpal tunnel syndrome, knee pain, ankle/foot pain, plantar fasciitis, hip pain, disc problems, athletic injuries, headaches, migraines, jaw pain, whiplash from car accidents, neck and back aches, indigestion, acid reflux, constipation, pregnancy induced low back and leg pain, bed wetting, colic, blood pressure problems, neurological disorders, numbness in their limbs...*Just to name a few.*

**Here’s what some of my patients had to say:**

*“Dr. Henre has been able to relieve both the headaches and back pain to where I sometimes forget that the problems ever existed.” (William C.)*

*“Changed my life!” (John W.)*

*“Dr. Andosca is an excellent chiropractor. I have referred many family members and friends to him. I would travel hours if I had to just to see him.” (Darlene G.)*

I am grateful for my wonderful profession and for the patients I have been able to help. What I do is perform thorough analyses of your spine, extremities and nervous system using sophisticated **state of the art technologies** to determine the levels and areas of unmanaged and accumulated stress. Then, I deliver specific spinal and extremity adjustments to remove that stress, and your body responds by healing itself. **Patients get better in ways I never imagined.** It’s truly amazing!

**Exciting Offer-**When you are one of the first **20** people to call and schedule a new patient exam (by **February 15<sup>th</sup>, 2018**) you’ll receive that entire exam

for **\$37**. That’s with all necessary x-rays (we have onsite Digital X-ray), and a CoreScore Exam (including Thermography, surface electromyography (sEMG) and Heart Rate Variability (HRV))...and there are no hidden fees. But, call right away **because** we expect to be flooded with calls as this complete exam normally costs up to **\$250**. Again, there’s only **20** of these slots, so don’t miss out.

My qualifications and the results that my patients have achieved speak for themselves...I graduated cum Laude at Western States Chiropractic College as a Doctor of Chiropractic. **I’ve been entrusted to treat newborns to those over 100 years old.** I am gentle and thorough, and will let you know if I can help you. **I have this special offer to help more people who need care.**

We have a wonderful, friendly and inviting office called: **120 Chiropractic Inc.**

We are located at: **1836 NE 7<sup>th</sup> Ave, Suite 109 Portland, OR 97212.**

Our phone number is: **(503) 506-5120**

Our website is: [www.120chiro.com](http://www.120chiro.com)

Our facebook page is: **120 Chiropractic Inc.**

Call us today for an appointment. We may be able to help you. **Thank you,**

**Dr. Henre J. Andosca  
Chiropractic Physician**

**P.S.** Of course, all people respond differently to care. No doctor (including me) can ever guarantee a cure for any condition.
