

Hear "I Love You" this Valentine's Day!

"When you lose your vision, you lose contact with things.
When you lose your hearing, you lose contact with people."

- Helen Keller -

Free Video Ear
Inspection*

We want you to be able to hear every sweet sound this holiday! If you are experiencing any of the difficulties below we may be able to help you!

- **Hearing but not understanding certain words**
- **Difficulty understanding conversation in noisy environments like restaurants**
- **Frequently asking people to repeat themselves**
- **Having to turn the TV up loud in order to understand what is being said**
- **Constant ringing, buzzing or other sounds in your ears**

By using a tiny video camera called a Video Oscope we can painlessly see inside of your ear all the way to the eardrum! Using the Video Oscope, our Hearing Instrument Specialist may be able to determine whether your hearing difficulties are being caused by earwax buildup or other conditions that may make it difficult for you to hear clearly. You will also receive a FREE hearing evaluation* to help further determine the cause of your hearing difficulties.

**THERE IS NO CHARGE OR OBLIGATION
FOR THESE SERVICES.**

Appointments are limited so schedule your FREE Video Oscope inspection and hearing evaluation today!

ILUV2

Hearing aids do not restore natural hearing. Individual experiences vary depending on severity of hearing loss, accuracy of evaluation, proper fit and ability to adapt to amplification. **See store for full warranty. †Hearing tests and screenings are always free. Not a medical exam. Audiometric test to determine proper amplification needs only. Mike Gatto, Supervising Licensee, NJ Lic #886.
