Something Special is Happening at SANTA CLARA UNIVERSITY

WE’RE PRODUCING LEADERS IN STEM

Sean Reilly ’16 was one of 32 American Rhodes Scholars for 2018, and is the third Rhodes winner to come from Santa Clara University in the past eight years. “I am excited to continue the work I began at Santa Clara and at Oxford, and to become a leader in worldwide environmental change grounded in sound scientific fact.” Reilly also received a Fulbright research grant in 2016 to develop a management plan for the invasive pond apple of Australia.

Hayley Raquer ’16 has been named one of 48 inaugural Knight-Hennessy Scholars at Stanford University. “I am so grateful to the Santa Clara community and all of the incredible mentors who supported me. I am looking forward to studying immunology with some of the best scientists in the country, and I hope to use my time as a Knight-Hennessy Scholar to approach problems regarding women’s health research and diversity in STEM.”

WE’RE PRODUCING WORLD-CLASS ATHLETES
