Speech Shift Technology Available Exclusively at Reese Audiology!

Over 30 years in the making, **Speech Shift** by **NuEar**, actually shifts inaudible high frequency speech cues to the lower frequencies so they can be heard again. Great for high frequency hearing loss. Available in all sizes including **Custom Invisible** hearing instruments.

Professional care provided by a Doctor of Audiology

Services include:

- Personalized demonstration of NOW™ Wireless Hearing System
- Real Ear Measurements on all hearing instrument fittings.
- Cerumen (wax) removal
- Immittance testing
- Otoacoustic Emission Testing

WE ACCEPT MOST INSURANCES

Call today for your hearing evaluation and NOW iQ hearing instrument demonstration!

A word from your local Audiologist:

Our one location and one Audiologist approach ensures you will receive personalized care. I have helped thousands hear to their potential and you can too. You deserve honest professional care and that's what you will get at Reese Audiology.

Dr. C. J. Reese, FAAA
