

# Congratulations, Franklin County!

46.5%

## **We did something we've never done before.**

In 2017, we documented that we're keeping 46.5 percent – or 985,000 tons – of our waste out of the landfill.

That's a record amount of waste that was diverted from the landfill by recycling and composting.

We want to thank everyone who helped to achieve this accomplishment and encourage you to continue your efforts as we strive to divert 50 percent of our waste from the landfill by 2020.

**Look in tomorrow's paper for our Community Impact Report with more information on how we're going to reach that goal!**
