Q What is the best natural supplement you can recommend for weight loss that does not contain any stimulants? I am very sensitive to caffeine.

A Slim-4© is hands down the best thing I have ever seen for weight loss, natural or otherwise, and it is totally stimulant-free! I have personally seen numerous patients lose as much as 30 pounds or more using this combo and keep it off. I estimate it has a success rate of over 90% when used correctly. A 10 to 12 pound loss the first month is not uncommon. Slim-4© also has the added benefit of improving cholesterol and blood pressure! Slim-4© is a potent combination of Green Coffee Bean, Raspberry Ketones, Garcinia Cambogia and African Mango
