

Health Solutions: **Neuropathy**

Getting rid of irritating numbness and pain in your legs and feet with FDA-cleared treatment

Neuropathy Symptoms Found In 1 Out of 17 Americans

If you are experiencing any of the following symptoms in your feet or hands, they are likely attributed to a condition called Neuropathy. Peripheral Neuropathy is a very common condition that affects 20 million Americans and once identified, can be successfully treated.

These common symptoms are found in 1 out of 17 Americans and can come on quickly or develop over many years. No matter how long you have dealt with the daily misery of these painful symptoms, the doctors of Northeast Spine and Sports Medicine invite you to sit down and explore the reality of relieving your pain. Live a normal life again and enjoy the things you have missed out on!

Do You Have One or More of the Following Symptoms?

- Tingling or Burning
- The feeling like there is something in your shoe
- Numbness, abnormal sensations
- Feel like you have socks on, even though you are barefoot
- You find it harder and harder to walk
- Stumble into things or lose your balance
- Your foot is aganizing to the touch
- The feeling of walking on pins and needles
- Sensation of little bugs crawling on your feet
- Uncontrollable urge to move or kick legs to find relief
- Loss of the senses, warm or cold
- Spontaneous pinching, sharpness, or electric shocks

Finally – a Solution for Peripheral Neuropathy

"I was diagnosed with Peripheral Neuropathy in 2008. I tried several types of medications, but was allergic to all of them. After MicroVas treatments, I feel 80% better and I can even dance with my wife."

– Jerry W.

Experience the Difference at Northeast Spine and Sports Medicine

Team of Physicians - Over 50 years of combined experience incorporated with their caring approach, gives them a unique knowledge of what personalized treatments are needed to improve a patient's quality of life.

MicroVas - A non-invasive, pain-free treatment that elevates blood flow and tissue

oxygenation to the problem area. This treatment has proven effective for not only neuropathy but also chronic low back pain, carpal tunnel syndrome, sports injuries, pressure ulcers, ischemic rest pain and wounds that are otherwise slow to heal.

Cold Laser - A comfortable, non-invasive procedure

which is successful in treating chronic symptoms without pain or discomfort to patients.

Physical Therapy - A traditional treatment methodology aimed at the treatment and curing of certain ailments common to patients suffering with chronic or severe pain, its primary aim is to bring the patient back

to his/ her normal self, free of any pain or suffering.

Acupuncture - Through clinical trials, acupuncture has been proven effective in treating various medical conditions including fibromyalgia and has been expanded into conventional medicine practices throughout the world.

About MicroVas

- Elevates blood flow and tissue oxygenation in the treatment area
- Accelerates lymphatic drainage
- Compatible with conventional wound care
- Non-invasive, high patient comfort
- Promotes angiogenesis
- Broad application for pain and healing

Patients Find Relief

"I was diagnosed with Peripheral Neuropathy in 2006, my neurologist prescribed Neurotin, which didn't help. After treatment of MicroVas, the burning sensation in my legs is gone. I sleep better and have better balance. The environment at Northeast Spine is nurturing and caring."

– Vicki M.

Northeast Spine and Sports Medicine focuses their therapy directly at treating the underlying disease and improving the symptoms with the right treatment. With over 50 years of combined experience and utilizing the combined knowledge of a whole team of doctors, including medical doctors, chiropractic doctors, and physical therapists, Northeast Spine and Sports Medicine will custom tailor a treatment specifically for you. They strive to help patients feel more comfortable, and improve their quality of live dramatically by using the perfect mix of physical

therapy, latest FDA cleared technology, and proven lifestyle advice.

Why Northeast Spine and Sports Medicine?

Our doctors offer some of the most advanced non-surgical, FDA-cleared procedures for relieving chronic pain. You will find the latest medical technology used to customize a program specifically for your needs and conditions. We offer programs and procedures that will improve your health with the utmost safety and precision. We will provide you with an accurate diagnosis and recommend a program that best fits your needs.

If you are serious about finding a lasting solution to your chronic pain, you owe it to yourself to call the office of Northeast Spine and Sports Medicine to schedule your consultation/ evaluation of your condition. By careful evaluation and extensive training, the doctors will design a treatment specifically tailored to your individual needs. From your first visit when you meet our friendly staff, you will get a sense of our deep commitment to your health and to you as a person. Instead of only treating your symptoms, we want to help you get 100% better. We identify the best treatment for your specific situation,

and help you to form lifelong habits that will improve your entire way of life.

Not All Neuropathy Treatments Are Created Equal

The Peripheral Neuropathy Program at Northeast Spine and Sports Medicine includes MicroVas, the latest FDA-cleared technology shown to reverse the symptoms of Neuropathy.

How Do I Know That This Is Right For Me?

In most cases, if you have Peripheral Neuropathy, this is a great solution. Our doctors will give you an honest and fair evaluation of your particular symptoms. If you are a

candidate for the treatment, a customized program will be created with your individual needs in mind.
