

# WANTED 79 PEOPLE

We need 79 people with hearing loss to try our new NOW iQ Rechargeable Hearing Aids!

*This is a great opportunity to try quality hearing aids.*

Acute Hearing will let 79 people with hearing loss experience the latest technology in hearing aids.

Call soon because we have to limit this offer to the first 79 people who contact us.

Modern technology is fascinating isn't it? We are writing to offer you an opportunity to take a look inside your ear using a tiny video camera called a Video Otoscope. This procedure is completely painless. The camera is actually placed just inside your ear canal. It will allow you to see all the way to your eardrum. The value of this procedure is that it may help you understand why you may be having difficulties with your hearing, such as:

- Hearing but not clearly understanding certain words
- Difficulty understanding conversations in noisy situations, like a restaurant
- Often asking others to repeat themselves
- Turning the TV up loud in order to understand what is being said

Using the Video Otoscope, we will be able to determine whether your hearing difficulties are being caused by ear wax. This exam may also reveal common problems like:

- Damage to the eardrum
- Fluid accumulation in the middle ear
- Other conditions making it difficult to hear clearly

You will also receive a **FREE HEARING CONSULTATION** to help further determine if you have hearing loss, what type of loss it is and possible causes.

## The most frequent causes of hearing loss:

Exposure to loud noise

Natural Aging

Heredity

Head Injury

Ototoxic Medications

Illness

**THERE IS NO CHARGE OR OBLIGATION FOR THESE SERVICES.**

Otoscopic exams will be held on the following days. Call for your appointment today!

**JULY 16TH-20TH ONLY!**
