Local, expert advice. Get to know us.

Deciding to add a new four-legged family member to your home can be very exciting. By taking the proper steps to prepare for the homecoming day will allow for a smooth transition for everyone. It is important that you provide a high-quality puppy food. Find out what your puppy has been eating and continue that diet during the initial transition to his new home. If you decide to change his diet be sure to do this slowly so that the change does not cause digestive upsets. Stop in at a Country Store and ask for our **FREE New Puppy Welcome Kit!**
