Our specialty:

Congenital Heart Surgery

Chandler’s specialty:

Casual Cruiser

At Danielle’s 20-week ultrasound, it was discovered that her unborn baby had a congenital heart defect that would take three surgeries to repair. Knowing that her daughter would need immediate surgery, Danielle chose to deliver at MemorialCare Miller Children’s & Women’s Hospital Long Beach. At just 12-days-old, Chandler had her first heart surgery with Shaun Setty, M.D., medical director, Pediatric and Adult Congenital Cardiac Surgery, Children’s Heart Institute. Today, after two surgeries, 11-month-old Chandler is cruising on her way to walking.

Specialized care. Just for kids.
