

Clinical excellence, *quality care.*

Coastal Ob Gyn and Midwifery provides the highest level of evidenced-based care for women across the lifespan. We are an integrated collaborative group of clinicians that includes four board-certified physicians, four certified nurse-midwives, and one physician assistant. Our optimal model of care offers our patients alternative options and the services of experts in all routine and specialized obstetrical and gynecological needs. We strive for excellence in our practice and prioritize personal attention, respect, and compassion. Our providers have privileges at Lawrence + Memorial Hospital, a baby-friendly accredited hospital with a level III nursery located in New London, CT. We have offices in two convenient locations: New London, CT and Westerly, RI.

Our group is committed to your health, and our goal is to make your pregnancy and childbirth a wonderful experience. During your pregnancy you will meet with each of our providers. We want you to get to know our group and ensure your continuity of care. One of our midwives along with physician back-up is on-call 24 hours a day, seven days a week for emergencies and of course normal labor and birth.
